CROP OF TOBACCO NETS BIG PROFIT

Wagon Load of Jackson County Product Taken to Madison Overland and Sold for \$350.

J. HAYDEN FARLEY WAS OWNER

Shipment Grown on Acre and Half Near Freetown—Unusual Crop for This Vicinity.

That tobacco can be grown with profit in Jackson county has been demonstrated by J. Hayden Farley, near Freetown, who sold a crop from an acre and a half for \$350. Mr. Farley and J. G. Bowman, also of Salt Creek township brought a wagon load of tobacco here late Tuesday and were enroute to Madison where it was sold on the loose leaf tobacco market. The tobacco was of good quality and the owner expected that it would be given a high rating by the buyers.

Mr. Farley said that one or two other Jackson county farmers had grown tobacco for commercial purposes and had found the crop a profitable one. There is so little tobacco grown in this vicinity that there is no market for it here and the growers dispose of it in Madison and Louisville. Mr. Farley loaded his shipment on a truck here and drove overland to Madison. He said that the soil in certain parts of Salt Creek township was well adapted to this crop.

Years ago tobacco was one of the principal crops in Jackson county and a market was maintained at Brownstown and Vallonia where the bidding was quite lively. Early histories of the county record at great length the attention that was given by the pioneers to this industry. In recent years, however, practically no tobacco has been grown in this county, although a few patches have been tended by farmers who produced enough for their own use. The wagon load brought here by Mr. Farley is the first shipment that has been made from the city for many years, it is stated. The high price which tobacco brings is an incentive to the farmers to cultivate it, although the expense of tending the crop is considerable.

ATTEMPTS TO STEAL AUTO FROM PRIVATE GARAGE FAIL

Would-Be Thieves Make Three Separate Efforts to Secure G. H. Anderson's Machine.

Three would-be auto thieves made three distinct attempts to steal the Maxwell touring car from the garage of G. H. Anderson, North Ewing street, Tuesday night. The first Mr. Anderson knew of their presence was when Amil Rebber, son of Fred Rebber, East Fourth street, came to his residence about 9 o'clock and told him he had noticed three strangers working with the lock on his garage door. Mr. Anderson, who was preparing to retire, dressed immediately while young Rebber went down Ewing street, with the three men following him. Evidently they were aware of Rebber's actions. At the corner near Bacon's grocery, Fifth street, they turned west and were next seen by Mr. Anderson coming up Seventh street. He immediately called for the police station but failing to receive an answer asked the telephone operator to get the notice to the police as soon as possible.

After working with the lock the second time the men again left only to return shortly. Expecting the police any minute Mr. Anderson kept quiet while the men alternately worked and watched. At last giving it up as a bad job the men left and never returned. Mr. Anderson waited for the police until 11 o'clock and then retired. He expressed much favorable sentiment for the strong lock on the garage doors for, he states, that is the only thing that prevented an elopement with his "benzine buggy."

WOMEN IN INDIANA GIVEN THE RIGHT TO VOTE FOR PRESIDENTIAL ELECTORS

BULLETIN
By United Press.

Indianapolis, February 5.—The senate this afternoon passed the Johnson bill, giving women the right to vote for presidential electors. The vote was 44 to 3, Erskine, Hagerty and Kline voting against the measure. The bill has been passed by the house and now goes to the Governor for his signature.

LICENSE CHECKS FOR DOGS ARE RECEIVED BY CLERK

If Pending Ordinance is Passed by Council License Fees will be Refunded to Owners.

Harry Findley, city clerk, has given official notice that the dog tax for 1919 is due and that the checks are ready for distribution at his office in the city building. The checks were ordered at the instructions of the council several weeks ago. The ordinance now in force provides that owners shall pay an annual tax on each dog which they own.

Another ordinance is pending before the council which would remove the tax feature and would require owners to keep their dogs on their own premises. A penalty is provided for violation. In case this ordinance is approved the money paid to the city clerk in license fees for 1919 will be refunded. The ordinance cannot be finally passed or rejected for several weeks, and under the ordinance now in force the annual license is due.

I. W. W. AGENTS ACTIVE AMONG TEXTILE STRIKERS

Employees, Most Foreigners, Have Repudiated American Federation of Labor.

By United Press.
Lawrence, Mass., February 5.—I. W. W. agents were here today making efforts to organize the striking textile workers. The general committee of the strikers has repudiated the American Federation of Labor and the local textile workers unions but has not joined the I. W. W.

A. J. Muste, Boston, leading the agitators, addresses the strikers and said "you will take the textile business yourselves."

Most of the listeners were foreigners and apparently did not understand what he was advocating. There was no trouble.

Paterson, N. J., February 5.—In their efforts to get control of the striking silk operatives here I. W. W. agitators were on hand for the workers mass meetings today. So far, however, the strikers had refused to follow the advice of the I. W. W. An attempt to hold an I. W. W. meeting last night failed. The strikers conducted their picketing in an orderly manner. Intervention by the national war labor board was expected by the mill owners. There are about 27,000 on strike here.

BRITISH EMBARGO ON U. S. GOODS IS CONDEMNED

Senate Wants State Department to Take Steps to Meet It—Discussion to Continue.

By United Press.
Washington, December 5.—After hours of condemnation of the recent British embargo on American goods, the senate today deferred action on Senator Week's resolution calling on the state department for information as to what steps have been taken to meet it. Discussion of the measure will be resumed tomorrow when amendments broadening its scope will be offered.

To Maintain Wage Advance.

By United Press.
Washington, February 5.—Wage advance to railroad employees during the war must be maintained, Director General Hines told the senate interstate commerce commission today. Watered capital must be wiped out. The government, he indicated still owes the railroad \$381,000,000 on rentals.

Big Fighting Force.

By United Press.
Washington, February 5.—The United States was ready to increase its fighting force to 7,100,000 men during 1919 if the war had continued, Provost Marshal General Crowder today stated in his annual report to congress.

URGES CHANGES IN THE CONSTITUTION

Director of Chamber of Commerce Would Bar All Political and Religious Discussions.

STANDING COMMITTEES NAMED

Out-of-town Speaker will Give Address at Next General Meeting to Be Held February 13.

Several changes in the constitution and by-laws of the Seymour Chamber of Commerce were recommended by the directors who held a meeting at the office of the American Mutual Life Insurance Company Tuesday night. The conference was called to complete unfinished business relative to organization.

It was voted by the directors to recommend that all political and religious discussions be barred and the following amendments to the constitution were approved and will be submitted at the next general meeting to be held at the council chamber on Thursday night, February 13:

"To strike out Article 8 regarding the levy of special assessments on members, etc., and to insert the following paragraph: 'No member of this Chamber of Commerce shall be liable for its debts or obligations, each member's obligation being limited to the amount of his annual dues as evidenced by the member's signed pledge.'"

"The Chamber of Commerce shall not affiliate or take part in any political party or religious denomination or wet or dry discussions, and any such discussions shall be stopped by the chairman at any meeting or the Chamber or of any committee."

The following standing committees were elected:

Spartacans Give Up Arms.

By United Press.
Berlin, February 5.—Spartacans in Bremen have decided to deliver their arms to Hamburg troops, instead of to the government forces sent against them from Berlin, according to advices received here today. After taking control of the municipal government in Bremen, the Spartacans offered to surrender to avert bombardment of the city.

To Protect Foodstuffs.

By United Press.
Berlin, February 5.—Four British and American cruisers have entered to Alba enroute to Hamburg to protect steamers loaded with food stuffs, it was reported here today. Hamburg is expected to be the central distributing point for food supplied to Germany by the allies.

Big Revenue Bill.

By United Press.
Washington, February 5.—The six billion war revenue bill conference report will be presented to the house Thursday, Representative Kitchin announced today. Kitchin hopes to obtain almost immediate consideration and adoption of the report.

FEDERAL PERMIT HELD NECESSARY

Government Must Give Consent to Making of Wine and Cider Even for Household Consumption.

WARNING IS GIVEN BY KRUYER

License is Not Required Where Individual Does Not Make More Than 200 Gallons for Home Use.

Hundreds of gallons of grape wine and apple cider are made in Jackson county each year but not many people are apprised of the fact that before they can legally make such beverages, even for their own use, they are required to procure a permit from the government. Information to this effect is issued by Peter L. Kruyer, collector of internal revenue in Indiana. He gives warning that the requirement will be enforced in the future and that federal agents will be sent abroad throughout Indiana to see that the necessary permits were obtained before the wine and cider are made.

The regulation has nothing to do with the state prohibition law, but is a federal measure. The Indiana dry law provides that wine and cider

CHICAGO RETAIL FOOD DEALERS ARE UNDER FIRE

Charged With Hoarding and Profiteering—Investigation by Federal Grand Jury.

By United Press.
Chicago, February 5.—Chicago retail food dealers were under fire today when forty-five of them were to answer subpoenas to the federal grand jury in its investigation of alleged food hoarding and profiteering.

Under direction of Assistant District Attorney Frederick Dickinson, jurors were expected to ascertain causes of high retail prices of butter, eggs, meats and poultry while wholesale prices have been consistently lowered in a badly shaken market during the last three weeks.

The investigation, which was believed will last two weeks, may net several indictments, according to investigators.

As jurors went to work a comparison of prices of three months ago with those today showed butter had dropped from 57½ to 58 cents to 44 to 45, wholesale. It retailed today at 55 cents. Three months ago, at the signing of the armistice, 64 cents bought a dozen eggs at wholesale, while retailers charged 68. Today wholesalers wanted 37 cents while retailers asked 52.

CHANGE PROPOSED IN REGISTRATION

Senate Unanimously Favors Amendment Which Would Classify Indiana Counties.

MORE HIGHWAY AMENDMENTS

Appointment of Members of Commission Would be Representative of State Districts.

By United Press.
Indianapolis, February 5.—Classification of counties for purposes of registration of voters is permitted under an amendment to the constitution passed by the senate today, 43 to 0. This amendment is expected to solve the difficulties experienced with the present registration law.

The senate by a vote of 27 to 16 passed the Bainum bill providing that mine operators must employ shot firers. They are now under the jurisdiction of the miners.

A bill prohibiting the display of red and black flags as introduced by Representative Deem.

The bill providing for a vote on the question of whether or not a constitutional convention shall be called, was introduced by Representative Miller.

The principal point in the new highway commission bill were agreed to by all but one member of the house committee on roads. Three separate reports will be made to the house, but two of them will not differ in principle. Representative Walker alone will favor indefinite postponement.

The following amendments were favored:
Salary of director cut from \$6,000 to \$3,600.

Members of the highways commission shall be chosen from different districts of the state.

Salaries of the employees to be fixed by the commission.

The commission will pass on all bids, and must advertise for bids for all work.

If all bids are rejected the commission cannot in building the road itself can spend more money than the lowest bid. The division of the report was on the distribution of the auto tax five favoring that the entire amount go to the highway commission and five advocating the distribution of the fund among counties.

The Beardsley resolution providing for suffrage to all citizens regardless of sex and the Johnson bill, providing for presidential suffrage for women of Indiana, were the two topics of major interest in the House and Senate respectively today.

The proposed constitutional amendment by Senator A. H. Beardsley, of Elkhart, passed the Senate unanimously as did the presidential suffrage bill when that measure was voted on by the members of the lower branch.

Because of the probable fluctuation of prices during the coming two years, the legislative visiting committee, has pointed out to the House committee on Ways and

DELEGATES AGREE ON PREAMBLE TEXT

Satisfactory Progress Made on Other Sections of Constitution of League of Nations.

ENFORCEMENT OF DECISIONS

Each Nation Would Be Permitted to Mobilize Its Own Army in Its Own Method.

By United Press.
Paris, February 5.—The peace delegates were working today on the most difficult problem involved in creating the league of nations—the force with which the league will make its decisions effective.

Opinion seemed to be divided as to whether this force should be moral or physical. Many plans have been submitted, the one finding the greatest support, providing for reduction of each nation's armament consistent with the maintenance with domestic tranquility; the league is to be ultimate judge as to the size of army and navy needed by the member nations. The manner of raising armies would be left to the individual countries.

Only great emergencies would be likely to call armies to distant points. Trouble would be settled by the armies nearer to the district effected. It is believed this plan will meet with the readiest approval of all countries, since it means the least change in present methods and overcome the natural prejudice against sending troops to distant lands, except in the case of greatest precaution.

The special committee which is drawing up the constitution for the league of nations has agreed provisionally to the preamble and two of the articles, it was officially announced today. Satisfactory progress is being made on other parts of the draft.

Great Britain and the United States almost certainly would rely on volunteers, attracted by good pay. France and Italy possibly corresponding to those in the British and American armies. Whereas France had a conscript army of 800,000 before the war, it probably would need only 20 or 25 per cent. of that number under the league. In the case of Great Britain and the United States, the number of soldiers would approximate their former standing armies, (200,000 for the British and 75,000 for the Americans.) When the central powers were taken into membership the league would fix the size of their armies.

Only great emergencies will be likely to call such armies to distant points. In the event of trouble on the American continent the United States would be directed by the league to take action. Similarly European troubles would be settled by utilization of the armies nearest the district affected. It is believed this plan will meet with the readiest approval of all countries, since it made the least change in present methods and overcomes the natural prejudice—which is felt by other countries as well as America—sending troops to distant lands, except in the case of greatest emergency.

Exchanges of views by the various powers indicate that one feature of the new "freedom of the seas" laws will be prohibition of floating mines and prohibition of all mines outside territorial waters. Such mines would have to be anchored and designed so they would be rendered non-explosive if they broke free. Three mile limit to territorial waters possibly will be extended, however, due to the fact that modern guns, both land and navy, have a greater range.

THE LONDON STRIKES.

Even the most casual reading of the dispatches relative to the strikes in London and other sections of Great Britain results in the conviction that there is a strange and unusual motive back of them. It is apparent that the trade unions are not responsible for them in fact they are trying to restore normal conditions. The strikers themselves do not present clear issues as to the fundamental cause of their action.

One division of the trade union in London demanded an eight hour day which was granted. When that demand was met they struck because they were not allowed half an hour at noon for luncheon. Others are striking for reasons that appear to be even less serious. It appears that the strikes are the result more of agitation than for real cause. Who the agitators are is not known, but it is hinted that the bolshevik leaders of Russia may have a hand in the disturbances.

If the strikes are of bolshevik origin they are tantamount to a fight against civilization. They can result in but one thing and that is a complete overthrow of conditions that are favorable to the strikers. When the fundamentals of civilization are cast aside there is little hope for anything else. The problem of capital and labor will never be settled by the destruction of civilization. The condition can only result in chaos.

In America the individual thinks out his own problems. The wage earner wants to know where he will fall before he leaps. We appreciate the full value of co-operation and organization in this country. The rights which we enjoy here were procured at too costly a price to have them overthrown by foreign bolshevik leaders. Conditions are not exactly as we would have them, but we are making headway towards better times. Americans are working out a program which is far superior to that of any other country and which gives promise of greater rewards. Great reforms cannot be accomplished in an hour. They must come through cooperation. They cannot be brought about by the destruction of what we have already gained.

QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.

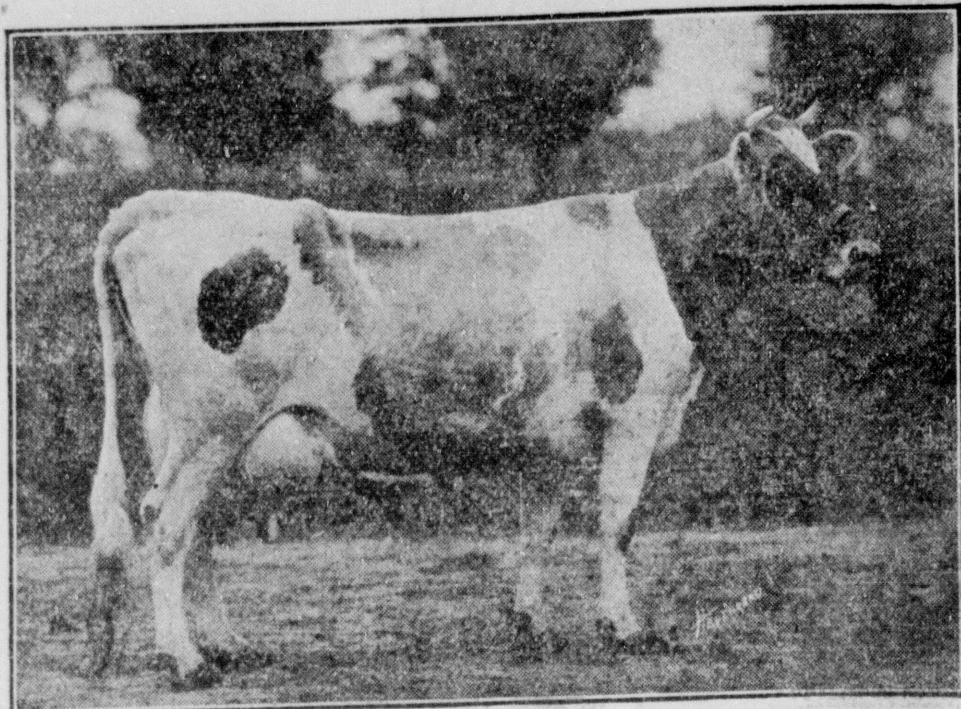

Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No griping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth" now and then—a bad breath—a dull, tired feeling—sick headache—torpid liver and are constipated, you'll find quick, sure and only pleasant results from one or two little Dr. Edwards' Olive Tablets at bedtime. Thousands take one or two every night just to keep right. Try them. 10c and 25c per box. All druggists.

SUCCESSFUL QUEEN

A Jersey with four yearly records averaging 768 pounds of butter fat. Successful Queen has just completed her fourth official year's record at her Ayredale Farm home in Bangor, Maine. There is a striking "pairing off" revealed in the four records, two of which are around 680 pounds of fat and two that are

around 850 pounds of fat. Another feature of her work that stamps her as a great animal is in the production of calves. In her first three lactations she carried a calf over the 155-day period required for classification in Class AA, Register of Merit. She does not come into her greatness by accident, and bids fair to make still more records.

thorized agencies to the training of wounded and crippled soldiers who are rendered unable to resume the occupations which they followed before they entered the service. Great hospitals and training camps have been constructed in several parts of the country and the surroundings are made as comfortable and cheerful as possible for these heroes who are required to begin life anew under handicaps unknown to them heretofore.

The work which the government is doing for these men is the duty which we owe to them. The disabled soldiers are young, vigorous and ambitious. Reports from the special hospitals show that about them there is a spirit of determination. Practically every man, regardless of his disabilities, can be trained for some kind of work. Those who did not complete their early schooling are given a course of training that will help them in later years. Others are taking up manual training and other crafts and trades, each being selected according to the ability of the individual.

The British government made preparations for such schools long before the war closed, but it was not until recently that the United States gave any attention to the problem. During the last few months, however, rapid headway has been made and some of the disabled men have completed their courses and are on the road to independent living. Whatever the government may do for these men is small in comparison to the heroic services which they rendered to their nation.

UNUSUAL JANUARY.

The climatic conditions in January were the most unusual in many years. It is declared by some Seymour citizens that the weather last month was quite similar to that which prevailed during January fifty years ago. At any rate the weather was much different than has been experienced in recent years. Numerous unusual reports were made during the month. We were told that flowers were blooming in protected places, that the sparrows were nesting and that a few eager gardeners were busy in the back lots.

Newspapers in other sections of the country related strange stories which seldom appear in the winter months. The great northwest which is generally tied up by heavy snows, ice and blizzards came forward with its share of January stories. It was reported that mosquitoes made their appearance in Montana. Indiana escaped in this respect. Robins and flocks of wild ducks were cared for in South Dakota. Minnesotans enjoyed house boating on the Mississippi and tennis matches were played in St. Paul. A session of the South Dakota legislature which convened last month was disturbed by robins on the capitol building, one newspaper states, and that plowing was general throughout the state, another declares.

Texas can always be counted on to be a little different. While the tennis, golf and house boating were enjoyed in the northwest and while the robins were singing in South Dakota, the golf links in Texas were buried beneath a heavy snow and the residents there suffered from blizzards.

Yes, January 1919, is in a class by itself.

The county commissioners are to be congratulated upon the firm stand they have taken relative to the completion of road contracts which were awarded before the United States

entered the war. The bonds for these roads have been sold and the taxpayers are required to pay the interest on them receiving no benefit whatever. It is intimated that the improvements were not completed because the contract price was too low to permit the contractors to make a profit. That is no concern of the county. A formal agreement was made for the improvement of the roads according to the specifications approved by the commissioners and the county engineer. The contractors were eager enough for the work that they furnished what was supposed to be good bonds that they would meet the requirements. If the price of materials had dropped it is not likely that the contractors would have refunded the county. Now that the tide turned unfavorable for the contractors they ought to be compelled to meet their obligations. The commissioners, it is hoped, will stand firmly by their ultimatum.

"I am tired all the time," "I am so nervous it seems as though I should fly," "I can hardly drag around today," and all such expressions are characteristic of women who have overtaxed their strength until headaches, backache, nervousness, dragging-down pains, irregularities and the blues symptoms of a female weakness, have developed. Women who are in this condition may rely upon Lydia E. Pinkham's Vegetable Compound to restore them to health and strength.

MOTION PICTURE OUTFIT IS PROVING SUCCESSFUL

Farmers are Enthusiastic Over "Shows" That are Given at Their Conferences.

County Agent A. E. Murphy, who presented before the meeting of Jackson county trustees recently the advantage of purchasing a motion picture machine to be used in demonstrating his lectures on agricultural developments before rural assemblies, has received his machine and will use it at a meeting of Redding township farmers Friday night at the Rockford school house.

Mr. Murphy is stirring up much enthusiasm among the farmers. The primary motive of recent meetings is to organize a Jackson county farm bureau and to do so successfully necessitates the attendance of the great majority of farmers. Mr. Murphy has succeeded in this respect by showing a fine reel motion picture play of Charlie Chaplin in "Shoulder Arms" at each meeting.

Valier & Spies Again Milling Their Famous Enterprise Flour.

Users of Valier's Enterprise flour have keenly missed their favorite flour since America entered the war. They will be glad to hear that, with the discontinuance of the government's milling regulations, Enterprise flour is again on the market—the same extra high quality Enterprise that it was a year ago.

The policy which ruled the Valier and Spies Milling Company with regard to Enterprise flour during the war, was that they preferred to withdraw this high quality flour from sale entirely, rather than change the high standard they have always maintained in its milling. Consequently, the Company widely announced that the public would have to wait for Enterprise until the war was won, or until the Government withdrew the stringent regulations under which millers were placed during the period of the shortage of wheat.

The "Return of Enterprise" is causing many a reunion of rejoicing in the kitchens and at the family tables of every community in the land. dlw1

LUTHERAN TEAM WINS

Piles Up Score of 33 to 13 Against Christians.

The Lutheran basket ball team defeated the Christian team at the Lutheran club house Tuesday night by a 33-13 point score. The Christian team was outweighed man for man and could not hold a strong defensive or initiate a successful offensive. Their victory over the Methodist team last week was a victory of one team over another when both were on an equal footing, but their defeat last night was obedience to the warriors code, "the survival of the fittest."

The lineups were:

Lutheran—Huber and Kasting, forwards; Buhner, center; Rebber and Steinwedel guards.

Christian—Able and Julian, forwards; Diehl, center; Gottburg and Fenton, guards.

This afternoon will see the conclusion of the interclass basket ball games being played at the high school. Previous developments strongly point to the Seniors as probable victors. They have won two games and lost none while the Juniors and Sophomores have each

"RIGHT Saving" Makes MIGHT

NEVER in the history of America have our people learned the value of regular saving as they learned it last year. The power of small savings accumulated into one mighty tide became the turning point in driving back the enemy from French and Belgian soil.

won one and lost one. So far the Freshmen have won nothing. This afternoon they are scheduled to meet the Seniors while the Juniors and Sophomores battle. The game played yesterday was a victory for the Seniors. Their score was 31 to the Sophomores 18. On the Senior team James and Mercer starred with nine and eight points respectively. Niehaus with eight points and Banta with six did the best work for the Sophomores. The Freshmen were due to play the Juniors but forfeited the game. Henderson and Carson acted as referees.

Hurt by Machine.

Will Kasperlain met with a very painful injury while working in the Seymour Chair Factory machine room Monday afternoon. While working near a swiftly running belt the ring on the little finger of his right hand was caught by the belt, pulling the finger through a small pulley and snapping it in two near the second joint. He was brought immediately to the office of a local doctor where the fractured member was treated.

"Folks Would Pester Me"

Somebody asked an old Missouri store-keeper why he didn't put a small advertisement in the local newspaper to advertise a "home blend" of coffee that was particularly good.

"I don't wanta," he replied lazily. "If I did, folks would pester me all the time to show'em my goods."

Thus did an old Missouri store-keeper pay unconscious tribute to the business-getting value of advertising. He missed a lot of business, of course, but there's another side of it.

Lots of people who really wanted this particular brand of coffee were unable to get it because no one ever told them where it was to be had.

You know yourself that it would take you twice as long to shop if there were no advertisements to guide you in your buying. You wouldn't know where to start. You'd miss a lot of values just because no one ever told you about them.

The man who advertises is glad to have you "pester him" to show you his goods. Don't miss the advertisements. They will save you money.

Suggestions to Women "Just Ready to Drop"

When you are "just ready to drop," when you feel so weak that you can hardly drag yourself about—and because you have not slept well, you get up as tired out next morning as when you went to bed, you need help. Vinol will help you just as it did these two women. Why not try it?

HERE IS PROOF

Pittsburgh, Pa.

"I keep house for my husband and myself and I got into a weak, run-down, nervous condition and no appetite. I heard how Vinol helped others and tried it and it built me up so I am strong, have a good appetite and feel better in every way." — Mrs. James Croker.

For all run-down, nervous, anaemic conditions, weak women, overworked men, feeble old people and delicate children, there is no remedy like Vinol.

Holmdel, N.J.

"I live on a farm and am a hard working woman and for weak, run-down, overworked conditions have found nothing that will create an appetite, build me up and make me strong equal to Vinol. It helped several others in our neighborhood, too." — Mrs. Thomas Ellis.

A very pleasant time was spent at the home of W. H. Craig and family Sunday evening, February 2, when a merry party of neighbors made a sudden and not altogether unexpected "surprise" invasion of the Craig home.

Mr. Craig bought a farm half a mile north of Uniontown last spring, moving from Leavenworth, Ind., where he had been a merchant for a number of years. His quiet and assuring ways, his kindness of manner and his interest in the local Sunday School have won him many friends during his short stay here.

Mrs. Craig and children and Mother Craig have also won a warm place in the hearts of their neighbors. But Mr. Craig's health prevents him continuing the strenuous work of the farm and he has concluded to return to Leavenworth. So the neighbors decided to wish the Craig family a God-speed to their former home and express their regrets at losing such a desirable family from their midst. Those present were: Mr. and Mrs. John Pierson, Mr. and Mrs. Elmer Conway, Mr. and Mrs. W. G. Proctor and family, Mr. and Mrs. Walter Moseley, Charles Conway and daughter, Mrs. Allie Bedel and son, Ivan, Miss Bessie Conway, Misses Susie Bedel and Mary and Blanche Dailey and Collin Lewis. The Uniontown orchestra being among the visitors, rendered a number of pleasing selections. After refreshments all joined in singing favorite hymns and then bowed while prayer was offered for God's blessing on all before dispersing.

13 Dollars— 13 Cents

When Swift & Company paid, say,—13 dollars per hundredweight for live beef cattle last year, the profit was only 13 cents! In other words, if we had paid \$13.13, we would have made no profit.

Or, if we had received a quarter of a cent per pound less for dressed beef we would have made no profit.

It is doubtful whether any other business is run on so close a margin of profit.

This is bringing the producer and the consumer pretty close together—which should be the object of any industry turning raw material into a useful form.

This remarkable showing is due to enormous volume, perfected facilities (packing plants strategically located, branch houses, refrigerator cars, etc.), and an army of men and women chosen and trained to do their special work.

This, and many other points of interest, are found in the Swift & Company Year Book for 1919, just published which is brought out for the public as well as for the 25,000 Swift & Company shareholders.

The Year Book also represents the packer's side of the Federal Trade Commission investigation, upon which Congress is asked to base action against the industry.

Many who have never heard the packer's side are sending for the Year Book.

Would you like one? Merely mail your name and address to the Chicago office and the book will come to you.

FEDERAL PERMIT HELD NECESSARY

(Continued from first page)

may be made within the state when it is to be used exclusively by the maker or the members of his household.

That the making of wine and cider is not prohibited by the prohibition law is shown by the following section of the act:

The state prohibition law provides in Section 5: "The provisions of this act shall not be construed to prohibit any person from manufacturing for his own domestic consumption wine or cider. Nor shall this act be construed to prohibit a person from giving intoxicating liquor in his own home, which is not a place of public resort."

Mr. Kruyer states that the federal laws provide that before any person can manufacture wine or other alcoholic beverage for personal use he must obtain a permit from the collector of internal revenue. The permit is issued without cost to the applicant. The requirement is made, it is stated, so that the government will know exactly where wine and such beverages are being made and in this way it will be better enabled to guard against violations of the federal liquor laws.

It appears from the number of

permits issued that comparatively few people in Indiana know of this requirement. The department is of the opinion that hundreds of people make wine and cider, although only a few permits have been requested. The small number is undoubtedly due to ignorance of the law, rather than to any desire to evade it.

The regulation, Mr. Kruyer, said, provides that any individual may make 200 gallons of wine in his own home for use therein without having to pay a federal tax, if a permit is obtained each year. All wine in excess of 200 gallons is taxable.

If the collector finds that the liquor is manufactured in violation of any of the provisions of the regulation all of the liquor is subject, not only to the tax, but also to a 200 per cent penalty. Thus liquor of more than legally specified gravity would be taxable at the rate of \$16 a gallon.

In case the revenue officers find any person selling or otherwise illegally disposing of wine made under a home permit the offender not only will face state prosecution, but also federal indictment for failure to pay the retail tax assessed against all dealers in liquors.

Flour and Feed Notice.

All farmers who have sold me wheat will get their flour without any raise in price. I am going to sell them the flour at the same price I did at harvest. I am grinding rye for feed at a lower price than hominy feed. I have all other feed in proportion. I also have a large stock of both eastern and Indiana coal on hand, put out all forked and in good shape at prices as low as the lowest. G. H. Anderson, Phone 353. j21d&wtf

Catarrh is a Real Enemy and Requires Vigorous Treatment

Do Not Neglect It.

When you use medicated sprays, atomizers and douches for your Catarrh, you may succeed in unstopping the choked-up air passages for the time being, but this annoying condition returns, and you have to do the same thing over and over again.

Catarrh has never yet been cured by these local applications. Have you ever experienced any real benefit from such treatment?

Throw these makeshift remedies to the winds, and get on the right treatment. Go to your drug store to-day, get a bottle of S. S. S., and commence a treatment that has been praised by sufferers for nearly half a century.

S. S. S. gets right at the source of Catarrh, and forces from the blood the germs which cause the disease. You can obtain special medical advice regarding your own case without charge by writing to Medical Director, 22 Swift Laboratory, Atlanta, Ga.

Steam Pressing Preserves the Fabric of Woolens

Our method of pressing clothes by steam is such that the fabric of the woolens is preserved, the colors are brightened and the cloth is given a firmness that is found in new materials. It has been proved that proper pressing and cleaning by the right methods adds to the wearing qualities of the cloth. Money that is spent for pressing is well spent. It is economy and at the same time it adds to the appearance of the suit or dress. It is because our methods are so satisfactory that our business is growing by such leaps and bounds. Satisfaction is guaranteed.

BRITISH MEAT PACKING INQUIRY WILL BE SHORT

Investigation of American Industry Will Be Informal But Effective.

By United Press. London, February 5.—According to plans today, the inquiry into the activities of the American Meat packers in this country will be short but effective. It is not proposed to attempt to call any of the American packers of their representatives as witnesses, unless they voluntarily offer to testify.

The investigating committee will be formed of representatives from

the board of trade, and the food and agricultural ministries.

Their investigation, a high official of the board of agriculture, told the United Press, will be informal. They will review in a broad way certain statistics as to meat prices in Great Britain. Few witnesses are expected to be called. A short cut to adjournment will be taken by the probable action of the report of the American Federal Trade commission. The American packers will be given an opportunity, if they wish it, to read in corrections of the American report but that doesn't mean the committee will accept the "corrections." Findings will be submitted to departmental heads who will formally submit a joint report with recommendations as to what action is advisable to parliament.

Parliament then may act.

Soldiers' Letters

With General Headquarters.

Pvt. Wm. W. Roseberry, has written his parents, Mr. and Mrs. Frank Roseberry, East Third street, as follows:

Chaumont, France,
Jan. 17, 1919.

Dear Mother and Father:

No doubt you will be surprised to receive a type written letter from me, but I am back to my old position again, (you get the position do you not?) well anyhow I will try to explain in the following paragraph how it all came about.

I left Base Hospital No. 89 last Sunday about one o'clock in the afternoon and had another side door pullman ride over a part of France, you understand what I mean by side door pullman, a small box car with 35 other soldiers to keep you company, we were a bit crowded and so I road up in a small cupola which was on the car, a place meant for the brakeman to ride, but as the brakeman was not there I took his place. We rode all Sunday afternoon and night, all day Monday and night and finally arrived in Toul early Tuesday morning. We then marched out to a replacement camp for the Third Army, all men coming back from a Hospital fit for duty are sent back to their respective companies by way of replacement camps. We had to fill out cards showing what we did in civilian life and as soon as I put down, "Clerk and Typist," they wanted to give me a job. I thought it over and accepted and was sent to General Hdq. at Chaumont the same afternoon. I and four other fellows left on the 4:45 train for this place. We arrived in Neuchateau about ten o'clock the same night and stayed there all night, caught a train out of there at 7:06 the next morning and arrived at Chaumont about noon, had dinner down town and reported at Gen. Hdq. for work, and got the same, I mean work, have been working ever since and chances look good for the work to last a while. I would not have taken this place if I thought I would have a chance to get home any sooner, but my division is on the line now and I think they will stay there until it is all over with, and this is not a bad place to spend the winter. We go to work at 8:30 in the morning, have an hour for dinner and work until 5:00 in the afternoon, so in a way it is a whole lot better than being up on the line doing guard duty and K P, I have done both and know what it is, have also had the pleasure of being in several battles, and when I saw a chance to take it easy for a while I could not pass it up, can you blame me very much, but I sure would blame myself if by taking this place keeps me from getting home a day behind my division. Well it is all in the game and they will send me home some day, we cannot all expect to get home at once. Believe me some of the fellows were lucky, they had no more than arrived in France than they were sent back.

I have written Central Post Office again for my mail and believe I have a possible chance of getting my mail now, have not received a line since some time in October and believe me the shells were flying fast and thick when I received your last mail, but not thick enough to keep me from enjoying them. I also stand a good chance of getting paid here as they are going to send for my service record and then I will get paid in full, have received no pay since July. As soon as I get paid I will have my photo taken and send you some. I see there are photographers in this town, the first I have seen since being in France, and if I keep on traveling much more I think I will have covered the biggest part of this country. Would like to see Paris before leaving, but would leave without taking in Paris and be only to glad to do so. I almost got there once, we passed through St. Denis, which is a part of Paris on our way to the first front. If they just drop me off back home some of these mornings real soon I will be well satisfied and have no kick coming for there are a whole lot of things back home that I would rather see than Paris.

Well mother I have told you about all that I know just at present, am in the best of health and hope this letter will find you all the same, also hoping to be with you real soon.

Your loving son,

Will.

Enjoying France

Clarence Rich has received the following letter from his brother, Archie Rich:

January 6, 1919.

Dear Brother and Sir:

I wrote some time ago. You ought to have gotten it by now. I will write again as I am still in France.

GIANT DAM RIVALS NIAGARA

Mammoth Structure in the Tennessee Mountains Will Provide Horsepower Estimated at 80,000.

Knoxville, Tenn.—Surpassed only by the Roosevelt dam and Niagara falls, and the largest dam east of the Roosevelt dam, is the mammoth new dam just completed at Cheoah, in the mountains 47 miles south of Knoxville.

Twelve hundred men worked over two years on it. Two hundred thousand cubic yards of concrete were used. It is 210 feet high from surface of river to crest. It raises a mist 100 feet high as its water strikes the river after flowing over the top. It is 350 feet long at the base, 725 feet long at the top, 175 feet thick at the base and 12 feet thick at the top. Six days were required to fill the lake behind it, which is ten miles long; engineers had figured on 21 days, but a heavy rain helped. It will produce 7,500 units more of horsepower than the combined consumption of Knoxville, Memphis, Chattanooga and Nashville, or over 80,000 horsepower. It is almost identical with the Roosevelt dam in the West. The cost was over \$1,000,000. Another dam will also be built in that region. It was built by and for the Knoxville Power company, an ally of the Aluminum Company of America.

Henry Winkenhof, of Huntingburg, who has been the guest of his son, G. A. Winkenhof, for several weeks, returned to his home this morning. George A. Winkenhof accompanied him as far as New Albany.

This is a Good Place to Buy Jewelry

In Jewelry probably more than in any other commodity the ordinary person has less knowledge of the real worth of an article. All isn't gold that glitters.

So it generally is a wise course for the average person to pursue to make every Jewelry purchase from some store that has earned the public confidence. Such a Store as This, for instance. There are many grades of goods that We do not handle at all.

And we Never put an article into stock without first assuring ourselves of its fitness to belong there.

"VEAL PIE"

As the immortal Sam Weller observed is a fine thing, "when you know the lady as made it." Weller hit upon the reason. We like to place dependence for the quality of the food we eat on someone in whom we have confidence. We can not now follow the old practice of employing food "Tasters" to sample every dish before we dip into it. We must take our food for granted.

We do not experiment with brands and change from one to another with the arrival of every salesman. We have learned to select season after season goods of uniform quality and flavor, not how cheap, but how good, which is always economy in the end. Our long list of satisfied customers is the best evidence of the confidence placed in us. When your appetite lags call 170. Satisfying appetites is our business.

SOLDIERS' LETTERS

(Continued from page 4.)

I had considerable trouble with my ear and I am at the hospital for treatment now. I came here the day after Christmas. I had trouble with my left ear, it is almost well now. I still get treatment for it.

This is a fine place at this hospital. I work in the kitchen at meal time and I get all I can eat. If I stay here much longer I will have to have clothes made to order.

Have just been to the Red Cross canteen and drank three cups of chocolate. A nice old lady, we call her "mother," she is so nice, she feeds the boys on hot chocolate. She calls us "her boys." We have movies to go to and it is not so lonesome here. I think lots of the Red Cross, it's fine. They give me a sweater and socks and handkerchiefs and tobacco for Christmas.

Have you seen any of the boys

that have come home from over here? I must stop now and go to supper.

Next morning. Will write some more. This town is as large as Seymour. I never have walked over it but I looked over it from the fourth story of the hospital through a field glass, which is where I stay. I hope you are all well. I don't get any mail yet but the way I have moved around I don't expect to get any. I sure will be glad when I get home again. I have been away so long. If I knew you were all well and all right I wouldn't think so much. I expect it is cold at home by now. It is only cold enough to frost here.

Well, don't worry, I'm coming home some of these days and will surprise you. Then I can tell you great things that have happened, things that you never thought of, I never thought of such until I saw them with my own eyes. Hope to return soon. Tell Marie, hello. I

would love to see her. As ever,
Your brother,
Pvt. Archie Rich, Co. I., 309 Inf.,
A. E. F. France.

Attached to Hospital.

The following letter has been received by Mr. and Mrs. J. H. Sager, Peter's Switch, from their grandson, Forrest Sager, Field Hospital No. 52, A. E. F.

How are you getting along. I am in good health and have a good job now. I am working around a hospital where the cases of mumps are treated. I have been here a long while and I guess I will be here awhile. I have a good bed to sleep in, plenty to eat and not much work to do.

I am in Le Mons now. It is the second largest city in France. Everything is very ancient, but it is surely worth my time here for what I can see and expect to see.

I got a new uniform Christmas and the Red Cross gave us socks, candy,

cigarettes, tobacco, handkerchiefs and a chicken dinner. Uncle Sam takes good care of his boys and the Red Cross and Knights of Columbus are doing their part. I don't know when I will be home but tell Grandpa to put that piece of ground along the rock road where the good wheat was in corn and also that other piece across from the cabin. I think I will be home in time to plant. How much corn did I have this fall? Have you it all husked yet?

I will close now so write to me at this address: Pvt. Forrest Sager, A. P. O. 762 Field Hospital 52, American E. F.

W. E. Weller went to Indianapolis this morning where he will attend the annual banquet of the Indiana Democratic Editorial Association to be given in the Riley room of the Claypool hotel Thursday.

Mr. Williams, of Columbus, spent the day in Seymour.

Will Hercamp, of Seymour, was here one day last week on business.

The condition of A. M. Browning, our town merchant, who is ill, remains unchanged.

A. J. Alfie, of Indianapolis, was here last week visiting relatives.

Mrs. A. L. Brown and daughter, Grace, are on the sick list.

O. R. Anderson and Leroy Gilbert are each quite ill.

Ed Allman sold his little farm near this place last week to Orval Spall, who will take possession this spring.

William Brackmeyer and his daughter, Mrs. John Kasting, of Seymour, came out one day last week to be the guest of his son, J. A. Brackmeyer, and family, for the day.

James R. Lewis has bought the Jackson property at this place and will move to it this week. We extend them a hearty welcome.

Jesse Elkins, who was severely injured while working at the Wells sawmill at Clearspring last week, is improving nicely.

Two automobiles, driven by J. W. White and Miss Mildred Bottorff, collided at this place last week, doing considerable damage to Mr. White's car. The accident was unavoidable and no blame was attached to anyone.

Miss Lois Hercamp and little brother, Clarence, of Seymour, came out Saturday to be the guest of their grandparents until Sunday.

George W. Phogley sold and delivered a fine mule to Hopewell Bros. at Seymour last week.

A small child of Mr. and Mrs. Frank Coffman, Jr., who died at their home in Seymour, was brought to this place last Friday and buried in the Acme cemetery.

Miss Grace Brackmeyer while at school one day last week sustained a very painful hurt, knocking two of her front teeth out.

William Wells and Raymond Wilson will erect at Surprise a building to be used as a garage and also will stock it up with farm implements. Mr. Wilson will have charge of the garage as he is quite an expert at the business. We wish them success in their new enterprise.

Joe E. Clark, of Richmond, was here last week looking after the interest of his farm that he recently bought at this place.

A series of meetings will begin at the Acme U. B. church on Monday evening, February 10th. Everybody is invited to attend these meetings which will be full of interest. They will be in charge of the pastor, Rev. McCoy, who is an able speaker. Don't miss them.

A hand grip and pocket book were left in the coach on the Southern Indiana one day last week. The owner can procure same by calling on Miss Hazel Claycamp at Surprise and describe property.

The death of Grandma Reedy cast a gloom of sorrow over this entire vicinity last week. She was about 83 years of age and lived her entire life in this neighborhood. She was loved by all who knew her. We join in extending our sympathy to the bereaved ones.

SULPHUR SPRINGS.

Ernest Heideman has purchased a new Victrola.

ATTEMPT TO INTERFERE WITH NATIONAL ASSEMBLY

German Soldiers' Council Takes Over Telegraph Offices and Censorship Ordered at Weimar.

By United Press

Berlin, February 5—The first attempt to interfere with the national assembly which convenes in Weimar on Thursday, apparently has been taken by the soldiers' council in that region. Reports were received here today that the telegraph offices have been seized and censorship established over all official telegrams from Weimar ordered. The government is preparing to declare a state of seige in Weimar, if such a step is necessary to protect the assembly.

Rev. C. P. Lanpher, pastor of the Nazarene church of this city, recently returned from Washington, D. C. where he has been conducting a revival campaign. Several years ago Rev. Lanpher was the regular pastor of the Washington church. He has returned to Seymour just in time to be present at the opening of the revival meetings here which are under the control of Rev. L. N. Fogg, of New England. The meeting held Tuesday evening was a great success. A large and thoroughly interested audience was in attendance and both Rev. Fogg and Rev. Lanpher feel that much good work will be accomplished.

WEAKNESS REMAINS LONG AFTER

Influenza

Reports Show That Strength, Energy and Ambition Return Very Slowly to Grippe Patients.

After an attack of influenza, doctors advise that nature be assisted in its building-up process by the use of a good tonic—one that will not only put strength and endurance into the body, but will also help to build up and strengthen the run-down cells of the brain.

One of the most highly recommended remedies to put energy into both body and brain is Bio-feren—your physician knows the formula—it is printed below.

There's iron in Bio-feren—the kind of iron that makes red blood corpuscles and creates vigor. There is lecithin also; probably the best brain invigorator known to science. Then there is good old reliable gentian, that brings back your lagging appetite.

There are other ingredients that help to promote good health, as you can see by reading this formula, not forgetting kolo, that great agent that puts the power of endurance into weak people.

Taken altogether Bio-feren is a splendid active tonic that will greatly help any weak, run-down person to regain normal strength, energy, ambition and endurance.

Bio-feren is sold by all reliable druggists and is inexpensive. For weakness after influenza patients are advised to take two tablets after each meal and one at bed time—seven a day, until health, strength and vigor are fully restored.

It will not fail to help you and if for any reason you are dissatisfied with results your druggist is authorized to return your money upon request—without any red tape of any kind.

Note to physicians: There is no secret about the formula of Bio-feren. It is printed on every package. Here it is: Lecithin; Calcium Glycero-phosphate; Iron; Peptonate; Manganese Peptonate; Ext. Nux. Vomica; Powdered Gentian; Phenolphthalein; Olearsin Capsicum; Kolo.

Eugene Wright, son of Mr. and Mrs. Ed Wright, is confined to his home with influenza.

Miss Sada Myers has resumed her work with the Graessle-Mercer Co., after being off duty for ten days on account of the serious illness of her mother. Mrs. Myers while still confined to her bed is improving slowly.

Mrs. Everett Kruwell has received word that her husband, who is with the 327th Field Artillery has arrived in New York. Private Kruwell arrived in France in September with the 84th Division.

Mrs. Florence E. Foster, wife of B. H. Foster, of Tiskilwa, Illinois, formerly of Jackson county, is very ill and will undergo a surgical operation within a few days. In a letter, Mrs. Foster expresses her appreciation of her former Indiana home and her Jackson county friends and wishes to be remembered to them.

The community motion picture course released by the Shields high school will present Quo Vadis Thursday night. The eight reel masterpiece was scheduled to arrive here as the first of the pictures to be shown at the high school but owing to damage to the film it was delayed until this week. All through Quo Vadis there runs a touch of romance, romance wild and untamed as the scenes of tragedy enacted by the pagan law of life that dominated the ancient world. The darker aspects of the story are somewhat modified by the deeds of dauntless during the hero captive executes to insure the safety of the girl he loves.

Liver Is Liver.

While we relate with pride the exploits of our young men "over there" and boast of our sacrifices both great and small let us not forget to speak a word for the patriotic expressions both in word and deed of our young men over here.

Last week a well known farmer in the Scipio neighborhood killed hogs, "butchered" as we are prone to call the live stock massacre. At the dinner table that day the good housewife, eager to hurry the consumption of hog hearts, ribs and so forth, inflicted the "liver smothered in onions" stunt on the immediate household.

Here is where we strike the keynote of patriotism. The son, the five year old heir to farm and fire-side, to secure sufficient elevation put a box on a dining room chair and became very much in evidence with his onslaught on the bill of fare. He attacked a huge piece of liver generously ornamented with onion. His knife slipped and the liver hit the floor with a thud. His war training brought an unconscious response. The youngster sprang to the floor flourished his fork at an advancing cat, grabbed up the lost liver and returning to his seat with a Herby Hoover expression illuminating his youthful features spoke in awful accents, "I'll tell you liver is liver nowadays."

CHANGE PROPOSED IN REGISTRATION

(Continued from first page)

Means, which is preparing the general and specific appropriation bills, the economy in providing for a contingent fund of \$1,000,000 to meet expenses of maintaining and operating state institutions instead of specific appropriations for each. Under the plan proposed, a committee of five members will be in charge of the institutional contingent fund, and will include three Republicans and two Democrats.

A referendum vote at the 1920 general elections, providing for calling a constitutional convention, is provided for in a bill which is being prepared for introduction in the House and Senate. The bill is being drawn up with a view of overcoming the difficulties encountered in the constitutional convention bill passed by the 1917 legislature, which was held unconstitutional by the supreme court. The court held that a referendum vote is necessary before a constitutional convention can be legally called together.

More Trucks Here.

Sixty army trucks manned by nearly a hundred soldiers made their way through this city today enroute from Indianapolis to Camp Knox. They were in Columbus early this morning, but did not reach this city until 3:40 o'clock. Arrangements were made from Columbus for the accommodation of the drivers at Brownstown tonight. The machines will be parked around the public square and the rooms of the Court House will be turned into barracks as on a previous occasion.

John Haley, of Vallonia, went to Anderson this morning for future residence.
